

# CSS Challenge I

Reproduce the following patterns using HTML and CSS.  
Use allowed tags and take advantage of given clues.  
Technical constraints are an integral part of the exercise !

Use the [W3C validator](#) to ensure the quality of your code !

## Iteration 1 - Red target

- A 200 \* 200 px box containing a 100 \* 100 px target.
- Allowed tag: div
- **Use only:** background, border, box-sizing, height, padding, width

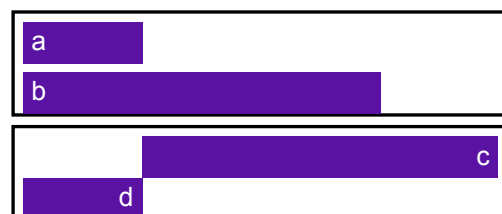

## Iteration 2 - Shaped table

- A 300 \* 150 px table with alternate background on second row.
- Allowed tags: table, tbody, tr, td
- Hints: border, colspan, nth-child

## Iteration 3 - Purple blocks

- A 300px width element containing nested children.
- Allowed tag: div
- Hints: box-sizing, margin, nth-child, padding, text-align, width

## Bonus 1 - Inline-block rows

- A 300px width element containing 2 rows, each containing 4 children with 2px left or right borders.
- Allowed tag: div
- Hints: display (inline-block), width, border, [font-size](#) :)

1	2	3	4
1	2	3	4

## Bonus 2 - Flexbox rows

- A 300px width element containing 2 rows, each containing 4 children with 2px left or right borders.
- Allowed tag: div
- Hints: display (flex), border

1	2	3	4
1	2	3	4
